SUMMARY

React.js Developer focused on shipping complete, working products. Built the front end for 3 responsive web applications using React.js and Next.js, including a mental-health platform and an e-commerce storefront, with an emphasis on clean component architecture, state management, form validation, and REST API integration across the modern React ecosystem (Redux Toolkit, TanStack Query, React Hook Form, Zod, Tailwind CSS). Comfortable working end-to-end - from UI implementation through API integration to production deployment on Vercel.

PROFESSIONAL EXPERIENCE

Self-directed, production-grade projects — independently scoped, built, and deployed end-to-end.

Frontend Developer — Safe Space (Personal Project) | mentall-health.vercel.app | June 2026

React 19 • TypeScript • Redux Toolkit • TanStack Query • React Router v7 • Tailwind CSS v4 • React Hook Form • Zod • Axios

- Built 5 pages and 10+ reusable components, including 2 clinical self-assessments (PHQ-9, GAD-7) with automated scoring and progress tracking.
- Developed an AI chat assistant and secure account management (OTP password reset, protected history), with full dark mode support.
- Integrated 10+ Node.js/Express API endpoints; resolved CORS/payload issues and authored Postman docs.

Frontend Developer — FreshCart (Personal Project) | freshcart-mk.vercel.app | February 2026

Next.js 16 • NextAuth.js • TypeScript • Tailwind CSS v4 • shadcn/ui • Radix UI • React Hook Form • Zod • Swiper/Embla Carousel

- Built and deployed a full grocery e-commerce platform with 20+ reusable UI components across auth, cart, wishlist, and checkout.
- Implemented server actions with on-demand revalidation (revalidateTag); fixed production-only auth/middleware cookie issues.
- Resolved TypeScript build errors and UI stacking issues, shipping a stable, fully responsive production build.

Frontend Developer — Social Connect (Personal Project) | social-connect-gamma.vercel.app | November 2025

React 19 • React Router v7 • TanStack Query • HeroUI • React Hook Form • Zod • Framer Motion • Axios

- Built a social media app across 8+ pages with authentication, protected routes, and a fully responsive layout.
- Implemented posts/comments consuming 5+ REST endpoints, plus user profile pages and a profile card component.

SKILLS

Programming: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend & Frameworks: React.js, Next.js, React Router v7, Redux Toolkit, TanStack Query, React Hook Form, Zod, Tailwind CSS, shadcn/ui, Radix UI, HeroUI, Framer Motion, Responsive Web Design, REST API Integration

Backend & Auth Integration: NextAuth.js, Axios, Node.js/Express (basic integration)

Tools: Git, GitHub, Vercel, Postman, Vite, ESLint, Version Control

Soft Skills: Problem-Solving, Attention to Detail, Collaboration, Communication, Adaptability, Time Management

EDUCATION

Bachelor's Degree, Faculty of Computers and Information (FCI), Zagazig University

Graduation: July 2026

LANGUAGES

- Arabic — Native
- English — Good working proficiency, mainly technical
