

MOKHTAR ISMAIL

React.js Developer | Frontend Engineer specializing in Next.js

Email: mokhtarismail619431@gmail.com | Phone: +20 122 420 1454 | Location: Zagazig, Egypt | LinkedIn: linkedin.com/in/mokhtarismail | GitHub: github.com/mokhtarismail

SUMMARY

React.js Developer focused on shipping complete, working products. Built the front end for 3 responsive web applications using React.js and Next.js, including a mental-health platform and an e-commerce storefront, with an emphasis on clean component architecture, state management, form validation, and REST API integration across the modern React ecosystem (Redux Toolkit, TanStack Query, React Hook Form, Zod, Tailwind CSS). Comfortable working end-to-end - from UI implementation through API integration to production deployment on Vercel.

PROFESSIONAL EXPERIENCE

(personal / independently-built and freelance projects — no formal employer yet; a selection of my strongest work)

Frontend Developer — Safe Space (Personal Project) | mentall-health.vercel.app | June 2026

React 19 • TypeScript • Redux Toolkit • TanStack Query • React Router v7 • Tailwind CSS v4 • React Hook Form • Zod • Axios

- Built 5 core pages and 10+ reusable components from scratch in under a month, including 2 clinically based self-assessments (PHQ-9, GAD-7) with automated scoring and progress tracking across multiple attempts.
- Developed an AI-powered chat assistant and secure account management (OTP-based password reset, protected chat history), with full dark mode support across the entire app.
- Integrated the frontend with 10+ Node.js/Express API endpoints, resolving CORS and payload issues, and authored Postman collections and API documentation.

Frontend Developer — FreshCart (Personal Project) | freshcart-mk.vercel.app | February 2026

Next.js 16 • NextAuth.js • TypeScript • Tailwind CSS v4 • shadcn/ui • Radix UI • React Hook Form • Zod • Swiper/Embla Carousel

- Developed and deployed a full grocery e-commerce platform on Vercel within a month, building 20+ reusable UI components across authentication, cart, wishlist, and checkout flows end-to-end.
- Implemented server actions with on-demand revalidation (`revalidateTag`) and fixed production-only auth/middleware issues (secure cookie handling).
- Resolved TypeScript build errors and UI stacking/z-index issues, shipping a stable, fully responsive production build.

Frontend Developer — Social Connect (Personal Project) | social-connect-gamma.vercel.app | November 2025

React 19 • React Router v7 • TanStack Query • HeroUI • React Hook Form • Zod • Framer Motion • Axios

- Built a social media web application across 8+ pages, including authentication (login/register), protected routes, and a fully responsive layout with global loading states.
- Implemented posts and comments functionality consuming 5+ REST API endpoints, including creation and deletion, alongside user profile pages and an introductory profile card component.

SKILLS

Programming: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend & Frameworks: React.js, Next.js, React Router v7, Redux Toolkit, TanStack Query, React Hook Form, Zod, Tailwind CSS, shadcn/ui, Radix UI, HeroUI, Framer Motion, Responsive Web Design, REST API Integration

Backend & Auth Integration: NextAuth.js, Axios, Node.js/Express (basic integration)

Tools: Git, GitHub, Vercel, Postman, Vite, ESLint, Version Control

Soft Skills: Problem-Solving, Attention to Detail, Collaboration, Communication, Adaptability, Time Management

EDUCATION

Bachelor's Degree, Faculty of Computers and Information (FCI), Zagazig University

Expected Graduation: 2026

LANGUAGES

- Arabic — Native
- English — Good working proficiency, mainly technical
